SYNTHETECTM STONE GRATING

WHY CHOOSE US?

SYNTHETECTM STONE GRATING

ADVANTAGES

A high-angle photograph of a swimming pool. The pool is filled with water and has a floor and walls covered in small, square, blue mosaic tiles. A stainless steel ladder with two handrails is positioned at the edge of the pool. The pool deck is made of large, light-colored rectangular tiles. In the foreground, there are several rectangular metal grates with a grid of small square holes. The background shows a concrete wall with some circular openings and a small structure with a red roof.

A photograph of a shopping center interior. The floor is covered in large, light-colored hexagonal tiles. In the foreground, there are several dark, rectangular drainage grates. To the right, there is a blue and white tiled wall. In the background, people are walking, and a person is holding a red and green shopping bag. The overall lighting is warm and slightly dim.
